

My vote is Against giving LPMF stations priority over FM transaltor service. Doing so would effect the ability of K-LOVE to transmit in it's current format. K-love is a valuable service in our community. They provide programing that is safe for all members of my family to listen to. there is never any questionable language in the music or from the DJs. and, since it is listener supported and does not play commercials, I don't have to worry about advertiser content that is not appropriate for young children. If LPMF transmisson is allowed to displace K-Love, hundreds of thousands of people in communities all over the country could lose this valuable station and be subjected to content that does not support family values. I urge the commission not to allow LPMF to take priority of current FM. Thank you
